

# RYAN ALLEN

## DESIGNER/DEVELOPER

**CONTACT** 702•808•7128  
hello@ryanallen.pw

**VIEW WORK** ryanallen.pw

**EDUCATION** Associates of Applied Science Degree  
Communication Arts  
Johnson County Community College

**WORK EXPERIENCE** **PartnerWeekly**  
Creative Lead  
800•620•7060  
05/07 to present

PartnerWeekly is one of the largest online performance-based marketing agencies focused on serving the consumer specialty finance market. I spend most of my time designing and coding interfaces for internal and external tools/applications and consumer facing web sites like moneymutual.com. I use all skills listed below on the regular.

**Mojo Communications**  
Art Director  
702•336•1100  
11/06 to 05/07

At Mojo I worked on branding campaigns for a handful of the lofts/condos that were popping up all over the Las Vegas valley prior to the housing crash.

**KNOWLEDGE** Adobe Creative Suite, HTML-HTML5, CSS-CSS3, LESS JavaScript (intermediate), jQuery, WordPress, Mobile First, Responsive Web Design, Email, SEO, Symfony (beginner), Twig (beginner), Git (beginner), SVN, and Print (not dead yet, right!)

**NOTABLE** Awarded Best of Show (first place out of 200 students) in the Communication Arts program portfolio review.

Personal site published in HOW books *The web designer's idea book*.

**FINALLY** What I bring to the table is the ability to design beautiful interfaces that are optimized for all devices. Designing with coding in mind (actually designing in the browser more and more) and always, always, always trying to make a better experience for the user.
